Press Statement

We appreciate the initiatives of Shri K Rajaraman, Secretary (Telecom) to issue directions to DoT field units to conduct monthly meetings with Service Providers to review the application approval process and pendency. This will be helpful to expedite the RoW permissions to the telecom industry and hence the realization of targets set under the National Broadband Mission. This is a very positive move towards making India digitally more advanced”.

To be attributed to Lt. Gen. Dr. S P Kochhar, DG, COAI.
